SIMPLE MUSIC FOR
COMPLICATED CATS

Simple Music For Complicated Cats

Simple Music for Complicated Cats is the quirky new and first solo album from **Xewin** (a change from his previous programming work for **cobalt**). The hypnotic electronic rhythms will lure your feline to the alleyway dance floors of the midnight city. **Cats Choices** and **Simple Needs** will be big summer hits at the secret disco of all those complicated cats.

In his mysterious laboratory, **Xewin** has conducted some meticulous analysis of short hair breeds, to develop this distinguished and addictive style of music, it is both addictive and mysterious – the sonority resonates like a low deep purr, based essentially on analogic sonorities.

Natasha Waters (Kaltehand), **Lionel Glassier** (Water Lily), **Bobby Johnson** are the lucky guest that shared this fascinating experience and mixed their voice with the warm purring sound of the synthesizers. **Love Motel** (CH), **The Activism Ministry** (JP) et **Ausgehd.8** (CH) did also bring their personal paws to the album by remixing some of the tracks in their own ways.
